

USAID
FROM THE AMERICAN PEOPLE

AFGHANISTAN

USAID is leading USG humanitarian assistance efforts in Afghanistan by:

- Supporting targeted responses to meet humanitarian and food assistance needs of conflict and disaster affected populations;
- Building resilience by supporting community-based mechanisms that incorporate disaster risk reduction and emergency preparedness; and
- Supporting coherent and coordinated national disaster preparedness and humanitarian response systems.

Humanitarian Assistance

Protracted conflict, high levels of insecurity, inhospitable terrain, severe climate and weak infrastructure have plagued Afghanistan for the past 30 years. Afghanistan's humanitarian landscape is further complicated by several other factors: a majority of the population lives in hard-to-reach rural areas, more than 700,000 Afghans are internally displaced by conflict, more than 200,000 people are exposed to natural disasters each year, and more than 3.4 million people are severely food insecure.

USAID Humanitarian Assistance Sector Priorities

Emergency Food and Nutrition Assistance
Emergency Health
Shelter and Non-Food Items (NFIs)
Water, Sanitation and Hygiene (WASH)
Risk Management/Policy and Practice
Information Management and Coordination
Humanitarian Air Service
